

Why is Insurance Fraud Totaling 80 Billion Dollars Per Year?

- ▶ Nearly one of four Americans say it's ok to defraud insurers and about one in ten people agree it's ok to submit claims for items that are not lost, damaged, or for personal injuries that didn't occur. Accenture Ltd. (2003)
- ▶ One of five employed workers say that they've been aware of fraud in their workplace. Insurance Research Council (1999)
- ▶ Seven of ten Americans say workers' compensation fraud is a widespread problem, and 45 percent say fraud is increasing. Insurance Research Council (1999)
- ▶ About 11 to 30 cents, or more, of every claim dollar is lost to "soft" fraud. Insurance Research Council-Insurance Services Office (2002)
- ▶ 17 to 20 cents of every dollar paid on bodily injury claims from auto policies involves fraud or claim buildup. Insurance Research Council (1996)

There is Hope...

- ▶ 17 to 20 cents of every dollar paid on bodily injury claims from auto policies involves fraud or claim buildup. Insurance Research Council (1996)
- ▶ Cases presented for prosecution increased 14 percent. Coalition Against Insurance Fraud (2004)
- ▶ Investigations initiated increased by nearly 18 percent. Coalition Against Insurance Fraud (2004)

Investigative Technologies is a full service investigative and surveillance agency providing a complete range of fraud-prevention and detection services. We are dedicated to providing professional, high quality services for our clientele.

The Difference...

Investigative Technologies offers a wide range of investigative services, which are handled by our fully licensed, insured, and professional investigators located strategically throughout our area of coverage. Unlike some of our competitors, we will never sub-contract your referral to someone else. We believe in building a strong partnership with our clientele based upon trust.

Investigative Technologies continues to expand its services to serve our clientele in other areas without compromising our commitment of Total Quality Service.

With Insurance Fraud being an \$80 Billion Dollar per year industry, you need to partner with a reputable company to aide in the combat against fraud. We look forward in serving you in all of your investigative needs.

Spanish Speaking Investigators SIU Support Services

With the increasing number of insurance claims, Investigative Technologies can assist with the investigation through our SIU Support Services.

This unit was designed to provide our clients with professional, innovative, and cost-effective solutions to your company's risk management, claims and SIU investigation issues. Spanish speaking investigators, fluent in

several dialects in the Spanish language and culture, are available in both Wisconsin and Illinois to assist with obtaining, transcribing and translating recorded statements eliminating the need for third party translation services.

Surveillance

Covert Surveillance, the most important factor of a claims investigation. When investigating insurance claims, video surveillance is the most frequent element used to determine the physical activity of a claimant that may contradict the reported injury. In order to be effective, the surveillance investigator must be unseen. Along with leading edge technology, there is no wonder why our investigators always accomplish their objective.

- Professional, licensed, & Insured Investigators
- Continued Education in Fraud Awareness
- Advanced Technology
